

Dear Dr. Witkowski,

Our time spent with you and the members of your team on Saturday was more important to us than you will ever know. We felt honored to be with all of the people who have turned my dreams into my reality.

I want to thank you personally for all that you have done. I know with certainty that you will play a huge part in the future of islet cell transplantation and change the lives of millions of people like me. There is no possible way for you to know how much I treasure the loyalty and commitment that you have shown me. I will sing your praises loud and long!

Your Greatest Fan,

Jay
